Bit of gossip 2

Showing the development of Death and the motorbike - these photos were sent for approval:-

Quotes from Terry's reply to Bernard *"Wonderful. I think it's great – I want it now....Two minor points – the two spokes protruding past the front wheel look, from here, certain to imbed themselves in the ground if the bike stops, doing a wheelie.....important because this piece should attract bikers who'll cheerfully accept all the bones and wood but might be a bit hinkie about a bike designed to send its rider arse over apex."*

Plus – "add a ring on his hand and Where's his scythe?"
